

WASHINGTON, April 23.

The *Intelligencer* publishes a letter dated Santa Fe, February 28, announcing the intention of Gov. LANE to take possession, on his own account, of a portion of the Mexican territory.

The Union announces the appointment of Mr. BORLAND as Minister to Central America; CHAS. S. FRALEY, of Ohio, Chief Clerk of the Land Office, vice Cabell, removed.

A large number of Clerks were discharged from the Pension Office to-day.

Major Stevens has nearly completed his preparations for the survey of the Pacific railroad. Lieut. Duncan and sixteen others have been sent to Oregon via the Isthmus, to start from Puget's Sound and meet the exploring party in the mountains. Another division of the party has been for some time in Canada, collecting information from the Hudson's Bay Company.

There is no moment like the present; not only so, but, moreover, there is no moment at all, that is, no instant force and energy, but in the present. The man who will not execute his resolutions when they are fresh upon him can have no hope from them afterwards; they will be dissipated, lost and perished in the hurry and skurry of the world, or sunk in the slough of indolence.—[Self-Culture.

A vote has been taken in the State of Rhode Island on the question of liquor prohibition.—The rum party was completely routed, as they have been and will be everywhere, when the naked question is submitted to the sovereigns. What awful liars they are who say the people are not in favor of the Maine Law! Those who claim we are fanatical and in advance of popular sentiment have not a single fact to sustain the charge. And the friends of rum everywhere are afraid to go to the polls with all their facilities for lying and electioneering—with all their wealth and influence.—[Temperance Organ.

AN IMPORTANT QUESTION.—The following question was propounded by an anonymous Scotch maiden, many years ago, but to our knowledge has never been answered:

"If a body meet a body coming through the rye—If a body kiss a body, need a body cry?" So far as we are informed in such matters, we do not hesitate to express our opinion, that under the circumstance there is not the slightest occasion for tears.

NEW ORLEANS, April 23.

The Independence, after striking, finally swung round broadside to the beach, when the coal took fire and entirely destroyed her. The passengers saved, 270 in number, were on a barren, uninhabitable island, without water, 56 hours, and suffered dreadfully. They finally attracted the attention of a whaler a few miles off, who came to their assistance with provisions and rescued the survivors.

Notice.

THE firm of Curtis, Lockwood & Coleman, have this day dissolved by mutual consent. Our business will continue under the name of Curtis & Lockwood, who will pay all demands against the late firm, and receive for all moneys due the same.
